Free shipping for many products! Product Information. Small Spaces is about living comfortably and using space wisely, and where better to find ideas on that subject than Japan, one of the world's most urban and densely populated countries? Tokyo resident Azby Brown, a distinguished architect and designer, has assembled dozens of creative solutions to space and storage problems, illustrating them with photographs and plans of actual living environments in contemporary homes. Certainly having less furniture and more built-ins is the best way to reduce clutter. Yes, build underground "closets" in your floorboards and crawl space. However, for most young people and for renters, the solutions are not practical because of lack of investment capital or long term plan for a space. As someone whose prospective first house is likely to be small--and even smaller inside--I've been looking around for useful ideas that will help me choose a home into which my Stuff will fit. (That's not just stuff; that's George Carlin-type STUFF, and it requires serious storage.) We're not just talking a smaller McMansion, but homes where the master bedroom is, on average, 10'x9' with badly placed doorways.
