## Introduction

It has been forty-seven years since **Indian Blood** was published by Evelyn Guard Olsen. Mrs. Olsen preformed a rare miracle by accumulating an enormous volume of information in an age before computers and the Internet. It was the most comprehensive history on the Friend Family published to date. However, she was not one to rest “on her laurels” and in the years after **Indian Blood** was released, continued to refine and re-analyze this work. While her work was based on the best information at the time, it unfortunately included a key misinterpretation in the early Friend family origins, which spotlighted the **myth of the English Sea Captain**. This myth alleged that the patriarch of the American Friend Family was Nicholas Friend, an English Sea Captain who married Anna (unknown) and together, they raised a large family. This myth also claims that after the captain’s death, Anna was married second time to a Swede named Neals Learson. Years after **Indian Blood** was published, Dr. Peter S. Craig, as well as others, brought to light that Nicholas and Neals (Nils) were the same person. It was shown that Nils (Neals) Larsson (Learson) Friend (Frande) was Swedish immigrant who came to the New World in 1642, married Anna Andersdotter Andersson and had a family of at least ten children, which has now expanded to countless descendants all over the world.<sup>1</sup> Presented with the facts, Mrs. Olsen set out to correct this unintentional mistake with personal correspondence and publications. In one article entitled **The Letters of “William J. Gibson” & Their Meaning, An Interpretation**, she systematically points

<sup>1</sup> Evelyn Olsen’s correspondence and publications, the research of Dr. Peter S. Craig and others can be found in **John Friend Sr. of Friendsville, MD, 2<sup>nd</sup> Edition** (2011) by Patty (Friend) Thompson and Patrick T. Smith. Additionally, information on Nils Larsson Friend, his son, grandson and great grandson are presented in great detail in this same book.

out the **inconsistency of “sea captain myth.”** Mrs. Olsen should be considered a genuine genealogist by addressing the possible inaccuracies inadvertently created by her book.

For this, Mrs. Olsen receives my utmost respect and admiration.

**Indian Blood** was first published in 1967 and contained just over 250 pages. In the summer and fall of 2006, I set out to organize and preserve a collection of century old hand drawn survey maps of Northwestern Garrett County, MD. That project would lead to the publication of **The Maps and Papers of William H.H. Friend** and serve as the catalyst to the current day Friend Family series. The series seeks to compile, correlate and preserve the history of the Friend Family before it is lost to time. This two-person effort has produced thirty books comprised of over 20,000 pages, with references from **Indian Blood** scattered though out. With dozens of future books already formatted, there appears to be no end in sight. Although I was never to meet Mrs. Olsen, her book **Indian Blood** was the initial inspiration in the early stages of the Friend Family series. For that, I will be eternally grateful.
