Flyboy in the Buttermilk: Essays on Contemporary America Greg Tate. This is the first of 2 volumes collected of Greg's writings, and is more than essential, it is....the essence, of American culture, of the past of Afro-Futurism and the Future of Afro-Retroism (to coin a phrase). Whether he is writing on Henry Louis Gates, George Clinton, Michael Jackson, Public Enemy, or Basquiat, his writing has a cultural and racial depth-of-field that is as illuminating as it is satisfying.Â This is what becomes of spending so many years in the music, only to find yourself buried by the accountants and the critics. But who else do we know who travelled with both Lester Young and Blind Lemon Jefferson? Also, his offhand remarks on religion and the origins of jazz are worth the price of admission.
